36. Rick Warren, 91:38

Better-attended and faster than last year! The Race Director notes: "Perfect running conditions, no gnats, 33 runners and 3 mostly walkers. Conrad pulled up the flags, much appreciated. Mark Gomez, new Central X-Country Coach, brought a number of runners, one of which, Jared Leblow (age 16), set a new record of 29:29.

None of us knew you were a state X-C champion. Where? The flags had been pulled out at the last crucial turn off the east ridge; however, everyone ended up at the finish line doing approximately the same distance."

*EDITOR: When Colo. Runner Mag requested some running-biography 'About the Author' I wrote that (among other things) I was A member (slowest) of the state champion CC team. So, I was A state H.S. CC champion, but the Magazine edited, shortened, and truncated my running biography -- to be interpreted as THE state champion. They edited a few other things, but did include my goal every race is to NOT set a new PW, which is rarely accomplished anymore.*
